№ 202.

Memo.

If takkavi advances are to be made to ryots to improve their lands by sinking wells, I beg to submit that it will be necessary to regulate the grant upon fixed rules which may be generally applicable. In such a case the Land Improvement Act XXVI of 1871 may with advantage be introduced into Mysore as was

done in the
case of Cook.

2 Under s 3 of the
Act "Improvement"
means wells, tanks
and other works
for the storage, supply
or distribution of water
for agricultural purposes,
or the preparation of
land for irrigation &c.

4 I do not think
the ryots will generally
avail themselves
of the provisions of
the Act in ordinary
seasons; but in
a season of drought
like the present,
it will no doubt
be a great help
to them if they
are assisted with

In Coorg, where the Act has been in force for some years, the provision has not been availed of in a single instance by

funds which will enable them to sink wells in their lands and carry on cultivation of their lands with the aid of the well-water

5- If advances be made to ryots they will themselves ~~make~~ procure & have the work carried out - There will be no difficulty in finding well diggers in each village. The ryots to whom the advances are made will themselves do the work with the aid

of amendment.

6 I submit with this for perusal the Land Improvement Act, 1871, and Duffus Inverness noted in the margin and the Rules recently sanctioned by Court.

C. P. Thomson G.

The Land Improvt Act is not in force in Ireland but if the principles be adopted & acted upon, I am inclining to doubt whether Takkan advances for the purpose will be applied to the objects for which they are granted. A similar proposal was made by the Deputy Comm[r] of Inverness, see para 6 of his letter printed in C.C. No. 1 of 22 Jan[y] 1876, and 1000 £ was then sanctioned. No part was ever known expended, except £2 Lifting and £ 700 by Orr

X. In the middle of the 19th as it was reported, I found them not dry to deal. The subsequent Nos: on the subject are not worth one, but can be put up if desired. The Deputy will come forward with words to take Takkan advances, but in the present state of things, there is no guarantee that they will apply the money to the purpose intended.

7. The foregoing orders were communicated to the Commissioners of Divisions in this Office Pro: No 1268 7R.674 of 24th July 1877.

8. In reply, the Commissioner of the Nandidroog Division states that he reported on this matter in his letter No 185 of 7th August 1876, recommending the grant of advances to the poorer classes of ryots, and that he has now little to add beyond the suggestion that the particulars required by Section 14 of the Land Improvement Act should be entered in full in the Stamp paper Muchalika to be given by the individual to whom the advance is made.

Letter No 96 of 18th Aug 1877.

Vide Memo No 459 para 4. attached to Revenue Consn No 185 of 7th Augt 76.

Letter No 531/88 of 20 Aug 77.

The Commissioner, Nasik Division, submits a Memo on the subject prepared by the Dy Commissioner of the Chalisgaon District. In this Memo, Major Armstrong states (1) that the proposed measure is a good one inasmuch as it will tend to the improvement of wet cultivation under wells which, no doubt, has suffered considerably during the past long drought of 2 years; (2) that the services of many well diggers can be procured as there are many who would only be too glad to get employment to sustain them; (3) that it is doubtful, during this season of distress, whether the advances made to needy persons will be strictly applied to the improvement of land; but that the

500 Rupees should be given, and that in such cases there would be no difficulty in ensuring that the money is properly spent. He also recommends that the intention of Government to grant the concession under certain guarantee should be published, but without specifying, in the first instance, either the limit of advance or the nature of the guarantee. The applications which may come in, if scrutinized, would then show

(1) Whether the desire for Government aid exists in any degree.

(2) The class of people desiring it.

(3) The extent to which the aid is desired and the nature of the instances...

Col Campbell's intention apparently is that in applications for loans under this Act Municipal Corporations of some size should have the prospect of securing in proper applications. In this sense I think his suggestion a good one.

I concur in

for cultivation below wells,
but that the area cultivated
mostly under wells but
treated by the Survey Dept
as gardens and shown as
"Chillar Bagayet" and
"Jadi Jasal" is Acres 31140-38-4
assessed at Rs 104.336-0-4.

Colonel Campbell
states that he has conferred
with the Mudaliars of the
Panapada and Doddere
talukhs (in which well
cultivation is carried on
to the largest Extent),
and that he sees no objection
to its being made known
in the talukhs that advances
will be given for the
construction and repair
of wells under the Land
Improvement Act.
The Commissioner thinks
no advance under

11 The Commissioner,
Ashtagram Division, submits
an abstract of the reports
of the Dy Comrs, Sub Dy Officers
and Executive Engineers on
the subject, from which
it appears that

Letter No 474 of 22 Nov 77

(1) the Dy Commissioner of Mysore
thinks that in the present
state of the country,
no restrictions or
guarantees would have
any effect in ensuring
the advances being
applied to the object
intended.

(2) the Dy Comr of Hassan
simply states that
there is no well cul-
tivation in his District.

(3) the Assistant Comrs
of Arsikere & Channarayapatna
Sub Drs think that
the proposed scheme
will not work well
as there are not

the present Famine. Much
wet and garden cultivation
is carried on by well
irrigation Especially in
the Frontier Districts of
Kolar, Tumkur & Chitaldroog.
And a great many wells
now existing are inferior
and only temporary.
The construction of large
wells with stone facings
will cost between 100
and 500 Rs. These may
be taken as the minimum
and maximum amounts
of advances to be made.

of 28th July 1877, Sanctioned

suitable lands for
sinking irrigation
wells; while the
Kilkenny Sub-Div.
Officer is of opinion
that there is no
necessity for
granting advances
to promote well
cultivation

(4) the Executive Engineers,
Cauvery & Hemavati Divs.,
state that there
are no suitable
localities for sinking
wells, while the
Ex. Engr., Mysore Div.,
observes that very
few well designs
are to be had.

12. Colonel Hay states
that owing to there being
no well cultivation in
his Division and to
the extreme difficulty
of obtaining a suffi

Number of well diggers,
the question of granting
Takavi advances for
well cultivation may
be deferred for future
consideration, especially
as prospects have
now considerably improved
and all tanks, cutlahs &c
have received a full
supply of water.

Draft Note

13. I think the Act may,
with advantage, be intro-
duced into Mysore, with
subsidiary rules similar
to those issued for Coorg
~~Wayanad~~. A
great many ryots will,
I think, be in need of
capital to improve their
lands at the close of

in the Mysore Budget for
Land Improvement.
In the office letter* to
the Resolution, it was
stated that the question
of the introduction of
the Land Improvement
Act into Mysore
was under contemplation,
and that the matter
would be submitted
for orders. Application
may now be made.

I have this day sent separately the Govt letter abt extending the Land Impt Act of 1871 from 1 April/78. Until the Act is extended I do not think it advisable to grant the proposed advances.

The advances to be made in each year should not exceed a lac without further sanction of India Vide para 9 of the Resolution the Trundy Div alone a lac is applied for at this rate we r' require I think 2 or 3 lacs. The C.C's proceedings to which this is a reply and the papers connected therewith were sent to Secy yesterday with a letter from the Dy Accountt Genl on the subject.

Para 1 of this Office No 10329 of 25 Ultimo was drafted in accordance with C.C's notes in which Rs 50000 was the amount mentioned as having been sanctioned by the Famine Dept.

I have sent a requisition to the Famine Dept for the papers connected with the grant of 5000 Rs and shall submit them as soon as they are rec'd.

The Circular upon the Govt of the Bombay may be appended with reference to para 1. I presume the advances therein referred to are to be granted without security - but they are not to be considered as loan, the best plan would be to treat them as special grants debitable to Famine Dept Funds and to require the Bombay Govt to submit the vouchers in due course.

The advances mentioned in para 2 of the Secy's letter are to be treated as loans, and the necessary steps taken to secure their recovery.
